QUOTE (Hawkeye @ April 26, 2010 04:29 pm)

Read and remember pinned topics.

Always heart breaking to see someone upload a ton of files to a banned host.

Plenty of time to fix this problem of course, and you have learned a valuable leason thumbsup.gif

QUOTE (pervfesser @ April 26, 2010 04:28 am)

Ditto what johndoe said.

But I'm more concerned about you using a **BANNED HOST**. Take your time to read the VIP application rules and review the list of banned host.

Thank you for your kind attention.

Captain Hawkeye, and pervfesser, I have learned a valuable lesson -- I must read, read, read, then re-read again.
Fixing this post right now, as I type this uploading to hotshare.net

QUOTE (johndoe @ April 26, 2010 02:16 am)

thanks for the up and good luck with your VIP quest
one note tho, please don't mix several videos together into one archive
some people are using slow connection and haying to download all files just to get one video will be a bitch

johndoe, good looking out, uploading each video to their own separate rars right now.

Ok, got work to do, be back in a flash..
